About This Game

Journey to the remote Isle of Polu, where you will meet the curious and adorable little creatures known as Buddies!

Visit the Hatchery to choose your Buddy, and bring it to one of the Isle's lovely beaches to fill its belly with delicious fruit! The more fruit your Buddy eats, the more points you will earn.

But remember: Buddies only have a limited amount of time to forage, and they don't like sour fruits. Eating a sour fruit will cause your Buddy to lose time. Also, some fruits are too big to be eaten and will stun your Buddy if they land on its head. Be sure to dodge these obstacles!

Use your points to unlock and purchase eggs to hatch new Buddies, and customize your Buddies with cool markings and colorful wristbands.

What are you waiting for? Come play!

Gameplay:

Fruit will fall from the trees overhead and it is your job to help the buddies catch them.

You will control your favorite Lil' Buddy and run back and forth in an arcade style fashion trying to catch as much fruit as you can.

You need to catch as much fruit as you can while avoiding dangerous obstacles like coconuts which will hurt your Lil' friends. The more fruit you catch, the more points you earn; which you can use to purchase cool things from the shop or unlock new levels on the island.

Great puzzle game. Addictive puzzles and a beautiful game to be invested in! Looking forward to seeing it progress from here!
Did you know?

There are three kinds of reviewers.

Those who play with keyboard and novice controls,

those who complain about HOTAS,

and those who can enjoy the game with a controller.. I've tried and tried to purchase this by buying and refunding and I thought maybe this would work but I was completely wrong. This DLC doesn't work. DO NOT BUY IT.

. I put in 15 hours during a free weekend, was impressed enough to get the game and all dlc while it was still on sale. Found myself doing the "just one more turn" thing until the wee hours of the morning.. This game is quite good, it's one of the best in the series next to Arkham City, The story telling is good, The gameplay is fun.

The bat mobile is a controversial thing added to the game but I enjoyed the tank sections quite a lot, other bat mobile sections not as much. I picked the game up after all/most things have been patched so I didn't see any glaring issues.

not to mention holy\u2665\u2665\u2665\u2665\u2665 I love the Scare Crow is this \u2665\u2665\u2665\u2665ing game, I love the voice actor they choose compared to Arkham Asylum. That \u2665\u2665\u2665\u2665ing voice is oddly pleasant to hear, is a great villain as much as I love the joker in the previous games, Scare Crow is a much better villain. This was the best way to end the series. The only problem with the game is \u2665\u2665\u2665\u2665 THE RIDDLER, it's so tedious to 100 percent the game because you need to EVERYTHING just to capture him and get the true ending, may as well look it up on YouTube tbh.... DLC is also great.. At \$4.99 I wasn't expecting much. When I was able to play the game without it crashing it was interesting, but it got boring pretty quickly. The mutineering without any reason or anyway to make the pirates happy again was annoying. I would ask for my money back but steam shows 5 hours of game play which you can do while buidling up but with no instructions to go on, leaves you kind of shooting from the hip sort of speak. You have a totorial but it seems to be very short and doesn't give you much but simple introduction to how to do some basic building. The game doesn't seem to open right away and it will play in full screen and periodically it would close. Again it's \$5.00 so don't get high hopes if you buy this game.

I think this is pretty fun game, even though its old as hell. And it has few bugs, but nothing game wrecking ones.. QP Shooting - Dangerous!! is 1 of fun shooting game

this game hard but don't hard equal toho project

example of hard level of this game

if thou play gunbird 1-2,dodonpachi,viper phase1,aero fighter 1-3,raiden 1-4,striker 1945,striker 1945-2,esp ra.de.,detana!!

twinbee,twin cobra 1-2,espgaluda 1-2,muchi muchi pork,ibara,giga wing 1-2,samurai

aces,guwange,mushihimesama,mushihimesama futari,ketsui kizuna jigoku tachi,ray force,ikaruga if ye perish thy can insert coin until thee can clear game but in this game thy can't insert coin for continue thy must very pro in shooting game if ye yearn clear this game

this game don't suit with amature player

if thou are amature player don't buy this game

7.99 us dollar is price of this game amature player should use your money with other game

merit of this game

1.this game have steam cloud

2.cute character

flaw of this game

1.this game don't suit with amature player

2.you can't insert coin for continue or creator of this game don't make continue system. Easily my favorite of the Hosted Games, probably my second favorite of everything COG has on Steam only after Choice of Robots. This author writes great characters and has an entertaining and easy to read writing style.

In particular I like the author's use of the COG engine's stats system, it's probably the best I've seen in any of the games using the engine. Beginning choices are used to establish a personality, which after a certain point stops changing, and from that point on consistency in your choices is rewarded instead. The other thing I really like about this is that the stat checks are used to determine how some scenes play out. I really really like this method of using the stats as it rewards role-playing and adds flavor and replayability. This is the same system that is used in the author's 'Samurai of Hyuga' series, but I feel like it put to much better use here.

As a side note, I thought the magic system was a really cool touch. After your 'personality' is established, you are assigned a type of magic that fits that personality and that is what is used through the rest of the story. This also means that several scenes are significantly different and adds to replayability.

Overall I VERY strongly recommend this one. it's the closest I've seen to a perfect COG style game.

Though it is near perfection and I absolutely recommend this game. I do have a few small suggestions for the author.

1) Please hire a professional editor. The weird autocorrected typos and malapropisms do not ruin the game by any means, but they can still be very distracting.

2) The ending could have been foreshadowed more. Again, very small complaint and doesn't ruin anything, but it is something that I personally thought could be improved.

3) It would be nice to have more information about what a choice entails. In particular, I may not always understand or agree on the interpretation of a given choice, so added detail, and in particular making the consequences of a choice clear before the choice is made, would help a lot.

. This was a very fun game. 9\10, would buy again! :D. lot of fun with a challenge. Feels like a playable ♥♥♥♥♥♥♥♥.

DLC WHEN?. a fantastic experience. music was beautiful and well done. scenery was just draw dropping. as a older generation gamer im so glad to see what we are capable of. i never thought i would see the day we actually had vr. excellent experience devs. hope to see more from you very soon. i have not gone through the entire experience yet because i didnt want it to end lol. Nope. Not worth your \$15.00. Poor platforming, poor conveyance and arbitrary kill mechanics make STANDBY a game you should leave on standby.. Excellent with leap motion Praise Jesus!
