About This Game

In a world where demons exist, Kain and Leanna live in a relatively peaceful village.

Kain is a natural-born fighter who hunts demons around their village.
Leanna is an innocent and kind-hearted young girl, but also kind of a bumbling idiot.

The two eventually marry each other, capturing the envy of the entire village.
As they prepare to start their happy life together, something happens.

That night, the village is attacked by demons.

Kain quickly grabbed his weapons and set out to defeat the invaders.

However, he is careless and leaves himself open for an attack, only for a traveler to dive in and take the blow for him.

Kain has a doctor treat the traveler, promising him that he'll pay later.

And thus, Kain ends up neck deep in debt.

Though he says he'll collect the money himself, Leanna has decided that she'll work as well; they are a family now, meaning that they share their problems.

It'll be up to Leanna to help pay off her husband's debts by taking up several part-time jobs in this Slice of Life RPG!

leanna's slice of life v1.0 by acerola. leanna's slice of life igg

This game is similar to President Yukino in "gameplay", except it's set in a fantasy world and the title character Leanna is married. There are other improvements, particularly in the UI as well as other main NPCs (Leanna is being targeted right from the start by her father-in-law, her brother-in-law, and the promiscuous sidekick of the great Hero.

So as explained in the opening sequence of the game, Leanna has to help her husband amass like 1M gold, by taking on various jobs all around town. Most of these will trigger events and lots of sexy time ensue~\u2665.. I'm almost done with NG+ and I was pleasantly surprised with all of the events I missed! This is an outstanding game!

PROS:

A lot of scenarios

Multiple routes

Good plot

Wonderful images

Great soundtrack

Hidden rewards

Cons:

Reused Images-I'm not a stickler for this but I know people do care haha

Can get very redundant if you do the same scenarios (probably a problem for people who don't like the other options). Meets required standards.. It is a fun game. You play as a virgin couple, mainly with Leanna but sometimes with Kain, in a infested city by perverts. Basically one psychopath friend of the couple got injured protecting Kain of a monster and the couple vow to pay for a sham 2 million gold treatment. Leanna works only during the evening at most days but can work 2 turns at weekends. She can try stay away from sexual abuse from most bosses or give in and become adulterous. Kain can also be a plain husband basically working and failing sexually until the end or become perverted and promote the adulterous life of the wife at night. It can be repetitive sometimes but the great text and richness of H-Scenes make the game fun and the mind and hands busy. Dont forget to install the last version of the patch.. recommended for ntr fetish ✓✓✓. 10V10 Good Game. Meets required standards.. Leanna + Yukino <3. This is one of the good ones. With acerola's trademark quality and style this is definitely worth the price if you're interested in this sort of genre. 8/10

recommended for ntr fetish \u2714\u2714\u2714. NTR story for this one get a thumbs up, somehow includes the neko CG scenes. Another thumbs up. xD. THis game is so good that it shold be destroid!. hehehe.....HEHEHEHEHE. I get the best ending with my virginity intact

Also found my new philosophy motto

"It's not sex if you do it in the @ss" - Leanna

mediocre gameplay and story though. 6/10. 10/10 Good Game. We need more games like this one. (\u0361\u00b0\u035c\u0296 \u0361\u00b0). Leanna + Yukino <3
